Dr. Alexander Hollaender  
Biology Division  
Oak Ridge National Laboratory  
P. O. Box Y  
Oak Ridge, Tennessee

Dear Alex:

It is always a pleasure, with some excitement and admiration, to see the list of publications from the Biology Division. Perhaps not enough people have taken an opportunity to say what is so obvious what a magnificent organization you have built up.

These publications will be so useful to the further research and teaching program in this department that I am tempted to say, perhaps as some convenience to you, to send us the whole list. If this is more trouble to you, I am also enclosing a list of the specific numbers in which we would be interested -- as you will see this is very nearly the whole program.

I would definitely appreciate having two extra copies of number 1300 and can assure you they will have close reading and excellent use in the department.

With best regards as ever,

Yours sincerely,

Joshua Lederberg  
Professor of Genetics

Encl.
